

**Announcement from King Mongkut's University of Technology Thonburi**  
**Subject: Policy on the Promotion of Learning Outside the Classroom through**  
**Extracurricular Activities**  
**(Extra - Curricular activities)**

---

The university promotes student activities to provide students with experiential learning (Learning by Doing), helping them develop life skills, management skills, and social participation skills. This contributes to producing graduates who are well-rounded in terms of physical, emotional, mental, and social aspects. Moreover, the graduates are expected to be both skilled and good, in line with the university's vision and the desired graduate attributes.

The university has established a policy to promote out-of-classroom learning through extracurricular activities every Monday afternoon onwards, as announced in the 4th Academic Council meeting on Monday, April 22, 2013. It is requested that all theoretical and practical classes be suspended during this time and on this day.

Therefore, this announcement is made for your knowledge and to be observed by all.

Announced on June 20, 2013

(Associate Professor Dr. Sakarin Phumiratan)  
President King Mongkut's University of Technology Thonburi
